INDEPENDENT AUDITORS’ REPORT
TO THE SHAREHOLDERS OF MOTHERSON ELECTRICAL WIRES LANKA (PRIVATE) LIMITED

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Motherson Electrical Wires Lanka (Private) Limited, which comprise the statement of financial position as at 31 March 2019, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2019 and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards for Small and Medium-Sized Entities (“SLFRS for SMEs”).

Basis for opinion

We conducted our audit in accordance with Sri Lanka Auditing Standards (SLAuSSs). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by CA Sri Lanka (Code of Ethics) and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards for Small and Medium-Sized Entities (“SLFRS for SMEs”), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

(Contd...2/)
Auditor’s responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SLAuSs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SLAuSs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other legal and regulatory requirements

As required by section 163 (2) of the Companies Act No. 07 of 2007, we have obtained all the information and explanations that were required for the audit and, as far as appears from our examination, proper accounting records have been kept by the Company.

The accounting policies and notes on pages 07 through 20 form an integral part of the Financial Statements.
1. CORPORATE INFORMATION

1.1 General

Motherson Electrical Wires Lanka (Private) Limited is a limited liability Company incorporated and domiciled in Sri Lanka. The registered office of the Company and principal place of operations is No. 32 Miles Stone, Pinnalande Estate, Watareka, Padukka.

1.2 Principal Activities and Nature of Operations

The principal activity of the Company was manufacturing, fabricating and assembling automobile wires.

1.3 Parent Enterprise and Ultimate Parent Enterprise

The Company’s parent entity is Motherson Sumi Systems Limited, which is incorporated in India.

1.4 Date of Authorization for Issue

The Financial Statements of Motherson Electrical Wires Lanka (Private) Limited for the year ended 31 March 2019 were authorized for issue in accordance with a resolution of the Board of Directors on 22 July 2019.
2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation and Statement of Compliance

The Financial Statements of the Company have been prepared in accordance with Sri Lanka Accounting Standards for Small and Medium-Sized Entities ("SLFRS for SMEs") issued by the Institute of Chartered Accountants of Sri Lanka, and also in compliance with the requirements of the Companies Act No. 07 of 2007.

The Financial Statements have been prepared on the historical cost basis and presented in US Dollars (USD), which is the Company's functional and presentation currency.

The accounting policies adopted are consistent with those of the previous financial year.

2.2 Foreign Currency

The Financial Statements of the Company are presented in US Dollars. The primary source of income and expenditure of the Company are in US Dollars and hence it is determined that US Dollars as the functional currency of the Company.

Transactions in foreign currencies are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rate of exchange ruling at the reporting date. All differences are taken to the Statement of Comprehensive Income. Non-monetary items that are measured in terms of historical cost in foreign currency are translated using the exchange rates as at the dates of the initial transactions.

2.3 Comparative Figures

Certain comparatives figures have been reclassified in order to conform to the presentation for the current period. Such reclassifications were made to improve the quality of presentation and do not affect previously reported profit or equity.

2.4 Property, Plant and Equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation. Subsequent costs are included in the assets carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the items will flow to the Company and the cost can be reliably measured. Other costs are charged to the Statement of Comprehensive Income during the year in which they are incurred.

Property, plant and equipment is depreciated on a straight-line basis over the estimated useful lives of the assets. The estimated useful lives of the Company's assets for the calculation of depreciation are as follows:

- Leasohold improvements: 5 years
- Office equipment: 3 years
- Plant and equipment: 6 to 10 years
- Computers: 3 years
- Motor vehicles: 4 years
The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount being the higher of their fair value less costs to sell and their value in use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the Statement of Comprehensive Income in the period the item is derecognised.

The assets residual value, useful lives and methods of depreciation of property, plant and equipment are reviewed at each reporting period end, and adjusted prospectively, if appropriate.

2.5 Inventories

Inventories are valued at the lower of cost and net realisable value. Costs are those expenses incurred in bringing each product to its present location and condition and are determined as follows:

- Raw material are valued at weighted average costs
- Finished goods and work in progress are valued at weighted average costs, which includes all direct expenditure and appropriate share of production overhead based on normal operating capacity
- Goods-in-transits are valued at actual costs

Provision for inventory obsolescence is estimated on a systematic basis and deducted from the gross carrying value of the inventory.

Net realisable value is based on the estimated selling price in the ordinary course of business less any further costs expected to be incurred on completion and disposal.

2.6 Impairment of Non-Financial Assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's fair value less costs to sell or its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

2.7 Trade and Other Receivables

Trade and other receivables are stated at original invoice amount less allowance for impairment. An estimate for doubtful accounts is made when collection of the full amount is no longer probable. Bad debts are written off when there is no possibility of recovery.

2.8 Cash and Cash Equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash on hand and at banks, which are subject to an insignificant risk of changes in value.

For the purpose of the Statement of Cash Flows, cash and cash equivalents consist of cash on hand and at banks, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.
2.9 Impairment of Financial Assets

The Company assesses, at each reporting date, whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if there is objective evidence of impairment as a result of one or more events that has occurred since the initial recognition of the asset (an incurred ‘loss event’) and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

2.10 Trade and Other Payables

Trade and other payables are recognised for amounts to be paid in the future for goods, assets or services received, whether billed by the supplier or not.

2.11 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

2.12 Employee Benefits

Employee Defined Benefit Plan – Gratuity

Provision has been made in the financial statements for retirement benefit obligations from the first year of service for all employees in conformity with Sri Lanka Accounting Standard (SLFRS for SME Section 28) – Employee Benefits.

The cost of defined benefit plans is determined internally by the management using the projected unit credit method. Projected valuations for defined benefit plans are carried out annually. The discount rate applied in arriving at the present value of the pension liability represents the yield on high quality corporate bonds denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Employee Contribution Plan – EPF and ETF

Employees are eligible for Employees’ Provident Fund contributions and Employees’ Trust Fund contributions in line with respective statutes and regulations. The companies contribute the defined percentages of gross emoluments of employees to the Employees’ Provident Fund and to the Employees’ Trust Fund respectively, which are externally funded.

2.13 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is received. Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and sales taxes.
The specific recognition criteria described below must also be met before revenue is recognised.

**Sale of Goods**

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and the amount of revenue can be measured reliably.

**Gains and Losses**

Net gains and losses of a revenue nature arising from the disposal of other non-current assets, are accounted in the Statement of Comprehensive Income, after deducting the carrying amount from proceeds on disposal of such assets and the related selling expenses.

Gains and losses arising from activities incidental to the main revenue generating activities and those arising from a group of similar transactions, which are not material are aggregated, reported and presented on a net basis.

**Interest Income**

Interest income is recorded as it accrues using the effective interest method.

**Dividend Income**

Dividend income is recognized when the Company’s right to receive the payments is established.

**Others**

Other income is recognized on an accrual basis.

2.14 **Expenditure Recognition**

Expenses are recognized in the Statement of Comprehensive Income on the basis of a direct association between the cost incurred and the earning of specific items of income. All expenditure incurred in the running of the business and in maintaining the property, plant and equipment in a state of efficiency has been charged to the Statement of Comprehensive Income.

For the purpose of presentation of the Statement of Comprehensive Income, the Directors are of the opinion that “function of expenses” method presents fairly the elements of the Company’s performance, and hence such presentation method is adopted.

**Finance Costs**

Finance costs comprise interest expense on bank overdrafts. Interest expense is recorded as it accrues using the effective interest method.

**Operating Leases**

Operating lease payments are charged to the Statement of Comprehensive Income on a straight-line basis over the period of the lease.

**Others**

Other expenses are recognized on an accrual basis.
2.15 Taxation

Current Income Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Taxation

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all temporary differences, except:

- Where the deferred tax liability arises from an asset or liability in a transaction that affects neither the accounting profit nor the taxable profit.

Deferred tax assets are recognized for all deductible differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- Where the deferred tax assets relating to deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that affects neither the accounting profit nor the taxable profit.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the deferred tax assets to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the assets are realized or the liabilities are settled, based on tax rates and tax laws that have been enacted or substantially enacted at the reporting date.

Deferred tax relating to items recognized outside the Statement of Comprehensive Income is recognized outside the Statement of Comprehensive Income. Deferred tax items are recognized in correlation to the underlying transaction either in the Statement of Comprehensive Income or Statement of Other Comprehensive Income.

Turnover Based Taxes

Turnover based taxes include Value Added Tax, Nation Building Tax and Economic Service Charge. The Company pay such taxes in accordance with the respective statutes.
3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Financial Statements requires management to make judgements, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

The estimates and underlying assumptions are reviewed regularly. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period or in the period of the revision and future periods, if the revision affects both current and future.

Impairment of Inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices.

At the reporting date, gross inventories of the Company were USD 1,314,269 (2018: USD 1,186,036) with provision for obsolete and slow-moving inventories amounting to USD 5,016 (2018: 4,375).

Employee Defined Benefit Plan – Gratuity

Provision has been made in the financial statements for retirement benefit obligations from the first year of service for all employees in conformity with Sri Lanka Accounting Standard (SLFRS for SME Section 28) – Employee Benefits.

The cost of defined benefit plans is determined internally by the management using the projected unit credit method. Projected valuations for defined benefit plans are carried out annually. The discount rate applied in arriving at the present value of the pension liability represents the yield on high quality corporate bonds denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability.

Going Concern

The Company’s management has made an assessment of the Company’s ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company’s ability to continue as a going concern. Therefore, the Financial Statements continue to be prepared on a going concern basis.

18. EARNINGS PER SHARE  

Basic Earnings per Share  

Basic earning per share is calculated by dividing the profit for the year attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

<table>
<thead>
<tr>
<th></th>
<th>2019 USD</th>
<th>2018 USD</th>
</tr>
</thead>
<tbody>
<tr>
<td>Amount used as the Numerator:</td>
<td></td>
<td></td>
