

Motherson Medical and Aster DM Healthcare join hands to provide affordable and reliable diagnostic devices & solutions in the global market

- Motherson Medical and Aster DM Healthcare partner to impact medical diagnostics in markets around the world
- With this partnership, Motherson Medical takes a step forward to achieve its mission of “Positively Touching a Billion Lives”, alongside Aster’s Caring Mission with a Global Vision to serve the world with Accessible & Affordable Quality Healthcare

15th June 2021,

Motherson Medical (a division of SMR Automotive Systems India Ltd.) and MIMS Research Foundation Trust (the research arm of Aster DM Healthcare) have joined hands to impact lives globally by delivering innovative and technology-driven diagnostic solutions. The partnership will involve testing and validation of new diagnostic devices designed by Motherson Medical. These diagnostic devices - using advanced technologies – are being developed to enable healthcare professionals around the world to run laboratory grade diagnostics rapidly and affordably for people in need in any care setting. The partnership will expand to encompass other areas over time.

Motherson Medical is working towards its aspiration of “Positively Touching a Billion Lives” by providing clinical grade solutions to address challenges of access, affordability and quality in health diagnostics and delivery around the world.

Commenting on the partnership, Varun Sood, Head – Health and Medical division of Motherson Group said, *“We are driven to positively impact lives globally by providing easy access to simple-to-use clinically accepted diagnostic tools and solutions to everyone everywhere. With this partnership, Motherson Medical and Aster DM Healthcare will work closely together to test and validate our new diagnostic tools and solutions from a clinical perspective.”*

Dr. Satish Rath, Group Chief Officer for Innovation and Research - Aster DM Healthcare commented, *“Access to reliable diagnostic tests remain one of the biggest bottlenecks faced by millions of people around the world. Even where patients have access to testing laboratories, accurate and timely diagnosis at affordable cost is a persistent challenge. Aster DM Healthcare, together with Motherson Medical is committed to provide reliable and technologically advanced solution to the patients in the field of medical diagnostic.”*

The need for fast, affordable, and accessible diagnostic solutions is of critical importance in the medical community worldwide. The efforts to introduce innovative diagnostic solutions are in alignment with Aster DM Healthcare’s global objective to identify critical challenges faced by doctors and patients and introduce measures to be able to tackle them.

About Motherson Group

The Motherson Group is a diversified global manufacturing specialist and one of the world's fastest-growing automotive tier-1 supplier for OEMs. We support our customers from more than 270 facilities across 41 countries, with a team of over 135,000 dedicated professionals. Thanks to the trust of our customers, we recorded revenues of USD 10 billion during 2019-20 and are ranked 22nd among the world's largest automotive suppliers. Our group has also entered the non-automotive segments like Health and Medical, Technology and Industrial Solutions, Logistic Solutions, and Aerospace.
